

## Second2 continues to move up the B2B Agency League Table

Second2 Ltd, a member of Adventis Group plc, has secured an enviable position in this year's UK B2B Agency League Table.

The agency is now in 8th place, representing solid, steady growth from 10th last year and 11th in 2009.

This ranking puts it ahead of the majority of other technology-focused agencies in the UK, as 30 of the 40 names on the list service IT/telecoms sector clients.

It's been a strong year for Second2, with new client wins, an expansion of work for existing clients and new staff joining its now 50-strong team.

The league table has been produced by b2bmarketing.net in association with Circle Research. Full details can be found [on their website](#).
